Use in Pfefferminzia MCP

The applicable document must be selected through contract ID, tariff generation, and market. Product line alone is insufficient. Any coverage or claim conclusion must also inspect the contract's concrete coverages, limits, deductibles, risk object, amendments, and available evidence.

Responsible-use boundary

This condensed document exists to demonstrate version-aware retrieval and tool use. It deliberately preserves conflicts and ambiguity documented by the upstream teaching dataset. It must never be presented as a real insurer's binding terms.
